

Cheap SEO Today

We do exactly what we
say on the phone.

Okay, a little about us.

Cheap SEO Today is a run by a small team of SEOer's, who have dedicated their lives to helping you, the customer, rank higher on across all major search engines. :)

Cheap SEO Today as a business has been running since mid 2009, although both myself and my colleagues have all worked in the SEO industry for many years.

We launched and still run Cheap SEO Today with 4 key principles -

1 • Keep things simple.

2 • Keep prices as low as they can possibly be, while offering effective long lasting results.

3 • NEVER offer package deals. SEO Businesses that offer really low priced packages of 1000 links or similar, generally DO NOT KNOW WHAT THEY ARE DOING!! Every organisation is different, every keyword is different, every competitor is different. Do not be taking in with the claim of 1000 links. Even if you choose not to work with us, please do not use these guys. The links are of very poor quality and are generated using automatic programs which can get your site black listed temporarily or even worse, banned!!

4 • If we offer you a price, we are saying we will ultimately get all your keywords to the top ten of Google. So expect to see your web site in the top ten of Google and Yahoo consistently within around 3 months as an average.

Cheap SEO Today

What we offer.

Okay, firstly we offer each new client a customised SEO campaign. Each campaign is tailored around a sites SEO history, the level of competition in within the industry of question and the number of keywords involved in each campaign.

Each campaign is made up of the following features, in chronological order -

- 1) A full **keyword analysis** - ensuring you are targeting the most relevant and most popular key terms.
- 2) A full **on-site analysis** - certifying that your site is optimised maximising ranking potential.
- 3) A **complete competitor analysis** - ensuring we understand the level of competition your site is contending against.
- 4) A large collection of relevant **directory links** across 3000 sites. This creates a base to your SEO campaign and starts to push you through the top 100 of Google search results.
- 5) **Article submission** to over 700 online news and PR sites, although only a small percentage of these will get published, each article that is published will be held in very high regard by Google further increasing your ranking.
- 6) **Blog and Forum submissions**, shown through article comments, displaying to Google that you are knowledgeable resource within the industry.
- 7) **Relevant industry links** - by far the most important of the SEO features is linking with non SEO web sites who are related to the same industry as you. Showing Google your fellow peers endorse your site as a resource in the industry, allowing the trust Google has for their site spill over on to your site as well, increasing your rankings further.

Each campaign will be created for all new clients in advance of any quotation. The quotation is solely based on the amount of work we anticipate your site will need. If after all work has been completed and your site is still below the first page of Google, the remaining work will be carried at no extra cost until you do rank high consistently.

Cheap SEO Today

Prices.

As previously mentioned, the price is based around the amount of work needed for each campaign. As each crusade is tailored at the point of contact it is hard for provide a list of set prices below.

However, I will state our prices range from £250 up to £1500 maximum.

- 60% of our clients campaigns to date have been charged at less than £600 total
- 30% are charged less than £900
- and only 10% of packages fall above £1000.

Our prices are fixed at one off to get your web site ranking high across all search engines. All rankings should last for 6 - 12 months without any additional work needing.

We do offer maintenance services after this period for £50 to £100 per month depending on the competition levels of the website in question.

We currently do not charge VAT inclusive with any package as we are a relatively new business. However, this may not always be the case, so please enquire at the time of purchase if you will be charged VAT.

Lastly, it is important to note that we undertake all SEO through White Hat or "Legal SEO" methods only. This work is undertook manually for longer lasting results, that will ultimately benefit your website.
